

## In an emergency

### 1. Verify

#### Verify the report.

- confirm with other campers, with emergency services or other reliable people the accuracy of the information about the emergency.

### 2. Notify

#### Notify the emergency services and AUSCAMP staff

By the quickest possible means, immediately notify:

- the emergency services
- the AUSCAMP staff

### 3. Assess

#### Assess the danger posed by the emergency

- use all your senses to build a picture which tells you what is happening and use that information to help decide on a course of action.
- use verbal information.
- observe what is happening to decide:
  - has the danger passed?
  - is the danger increasing or decreasing?
  - is the danger coming closer or moving further away?
  - is the weather or terrain affecting its progress?
- decide how much time exists to take alternative actions.

### 4. Act

#### Take action based on the assessment of danger.

- ensure that injured campers are not exposed to further injury or danger.
- contain the emergency if safe to do so.
- move people away from the danger area by the safest means, the furthest part of the campsite or to a site well away from the campsite if time permits.
- refer to any specific procedures developed for the emergency.
