

In an emergency

1. Verify

Verify the report.

- confirm with other campers, with emergency services or other reliable people the accuracy of the information about the emergency.

2. Notify

Notify the emergency services and AUSCAMP staff

By the quickest possible means, immediately notify:

- the emergency services
- the AUSCAMP staff

3. Assess

Assess the danger posed by the emergency

- use all your senses to build a picture which tells you what is happening and use that information to help decide on a course of action.
- use verbal information.
- observe what is happening to decide:
 - has the danger passed?
 - is the danger increasing or decreasing?
 - is the danger coming closer or moving further away?
 - is the weather or terrain affecting its progress?
- decide how much time exists to take alternative actions.

4. Act

Take action based on the assessment of danger.

- ensure that injured campers are not exposed to further injury or danger.
- contain the emergency if safe to do so.
- move people away from the danger area by the safest means, the furthest part of the campsite or to a site well away from the campsite if time permits.
- refer to any specific procedures developed for the emergency.
